

FOR YOUR GRAMMY® CONSIDERATION

"BEST JAZZ INSTRUMENTAL
ALBUM"

"SOLID JACKSON"
M.T.B.

"To call an album 'monumental' is no exaggeration - if anything. It risks understatement. Trust us: the music surpasses all expectations. This is essential listening."

- Sandro Cerini. MusicaJazz -

M.T.B. is a supergroup that convened once before on record, 30 years ago when its kingpins Brad Mehldau, Mark Turner and Peter Bernstein were still up and coming. With Larry Grenadier and Bill Stewart in the rear, they engage in sophisticated yet conversational jazz of a very high order.

- Chris Pearson, The Times -

"With 'Solid Jackson' M.T.B. delivers an album that lives up to the high expectation and is bound to be on regular rotation for a huge number of Jazz fans for a time to come."

- Andrew Taylor Dawson, UK Jazz News -
